

Summer Flounder, Scup, and Black Sea Bass Monitoring Committee Meeting Tuesday, July 27, 2021, 9:00 am - 3:30 pm

WEBINAR CONNECTION

- <u>Click here</u> to join the webinar (If prompted, enter Meeting Number: 173 813 6780; Password: SFSBSBmcJuly2021)
- Audio Options: Participants can use their computer mic/speakers or telephone for webinar audio. Once you have joined the webinar at the link above, you will be able to select your audio options. If you have an unstable internet connection, we recommend using the "call in" option. To use your phone to connect to audio, first sign into the webinar link above, then look for the "call in" option (if you don't see this, look for the "use computer audio" button, which will have a little down arrow next to it that you can click on that should bring up the "call in" option). That will give you a prompt with the phone number, access code, and Attendee ID#. Please make sure to use the Attendee ID# on your screen, as that will allow us to identify you on our end.
- **Phone-Only Access:** 1-844-621-3956 (U.S. Toll Free); Access code: 173 813 6780. Please only use this option if you are not connecting to the webinar on your computer or device. Otherwise follow the audio connection prompts to call in when you join the webinar.

MEETING OBJECTIVES

The Monitoring Committee (MC) will review management track assessment information and biomass projections for all three species, as well as recent fishery performance and management measure recommendations from the Advisory Panel, the Scientific and Statistical Committee (SSC), and staff. The MC will recommend 2022-2023 commercial and recreational Annual Catch Limits (ACLs), Annual Catch Targets (ACTs), commercial quotas, and recreational harvest limits (RHLs) for summer flounder, scup, and black sea bass. In addition, the MC should review commercial management measures for all three species and recommend changes if needed.

DRAFT AGENDA

<u>Times are approximate</u> and may change based on pace of discussion. Public comment will be	
allowed at designated times at the discretion of Council and Commission staff.	

9:00 am - 10:00 am2020 Recreational Harvest Estimates• Review of Marine Recreational Information Program (MRIP) estimation methodology to address missing data for 2020• Review and discuss 2020 harvest estimates and management implications for summer flounder, scup, and black sea bass10:00 a.m 11:30 a.m.Summer Flounder 2022-2023 Specifications • Review recent fishery information, Advisory Panel Fishery Performance Report, SSC recommendations, and staff recommendations.11:30 a.m 12:00 p.m.Scup 2022-2023 Specifications • Review recent fishery information, Advisory Panel Fishery Performance Report, SSC recommendations, and staff recommendations.12:00 p.m 12:00 p.m.Scup 2022-2023 Specifications • Review recent fishery information, Advisory Panel Fishery Performance Report, SSC recommendations, and staff recommendations. • Review recent fishery information, Advisory Panel Fishery Performance Report, SSC recommendations, and staff recommendations. • Recommend ACLs, ACTs, commercial quota, and RHL for 2022-2023, as well as any changes to commercial management measures if needed.12:00 p.m 1:00 p.m.Lunch100 p.m 2:00 p.m.Scup 2022-2023 Specifications (continued)2:00 p.m 3:30 p.m.Black Sea Bass 2022 -2023 Specifications • Review recent fishery information, Advisory Panel Fishery Performance Report, SSC recommendations, and staff recommendations. • Review recent fishery information, Advisory Panel Fishery Performance Report, SSC recommendations, and staff recommendations. • Review recent fishery information, Advisory Panel Fishery Performance Report, SSC recommendations, and staff recommendations. • Review recent fishery information, Advisory Panel Fishery Performance Repor	anowed at designated time	es at the discretion of Council and Commission staff.
