

NOAA's National Seafood Strategy

The strategy outlines NOAA's direction for **supporting a thriving domestic U.S. seafood economy** and **enhancing the resilience of the seafood sector** in the face of climate change and other stressors.

A draft strategy was crafted **based on input from the seafood sector** received over many years. The **CCC reviewed a draft** annotated outline last year.

Four Strategy Objectives

1. Sustain or increase sustainable U.S. wild capture production
2. Increase sustainable U.S. aquaculture production
3. Foster access to domestic and global markets for the U.S. seafood industry, and
4. Strengthen the entire U.S. seafood sector

You can help ensure NOAA adopts an effective strategy! Public comments are integral to finalizing the strategy and helping guide the direction of our work to support the seafood sector.

- Provide **written input** by March 16, 2023
- Provide **verbal comment** during one of our public listening sessions:
 - March 2, 2023, 2pm (EST)/11am (PST)/5am (ChST)
 - March 9, 2023, 5pm (EST)/2pm (PST)/8am (ChST)
